WINE LIST

A rosé (from French rosé; also known as rosado in Portuguese and Spanish-speaking countries and rosato in Italy) is a type of wine that incorporates some of the colour from the grape skins, but not enough to qualify it as a red wine.

It may be the oldest known type of wine, as it is the most straightforward to make with the skin contact method. The pink colour can range from a pale "onion-skin" orange to a vivid near-purple, depending on the varietals used and winemaking techniques.
